Instructions for preparing the Iron Knight Soldier's -10 Manual, page 1/2

1. Open the document using the Adobe Acrobat (.pdf) file labeled *FY05 – Iron Knight Soldier's -10 Manual (Chg1).pdf*

2. Verify that the document displays properly, and that all panels are complete and legible.

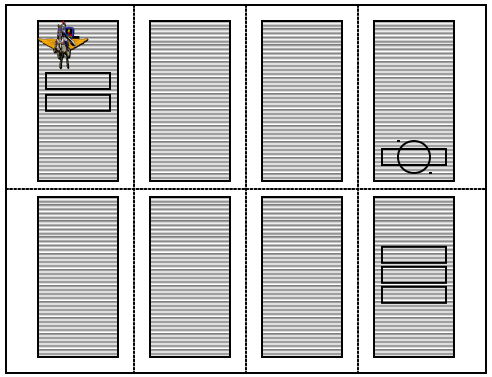
3. Select "Print Setup" from the File menu (Adobe Acrobat 6.0).

4. Verify that the document is set to print in "landscape" mode. If you see an option for page scaling (which alters the size of the document to fit the page), select "none."

5. Print the document, making sure that panels are not cut off or otherwise missing information.

6. If necessary, you can alter the margins or page centering features, etc. to get the entire page to print properly. This may take some experimentation, depending upon what type of printer is used.

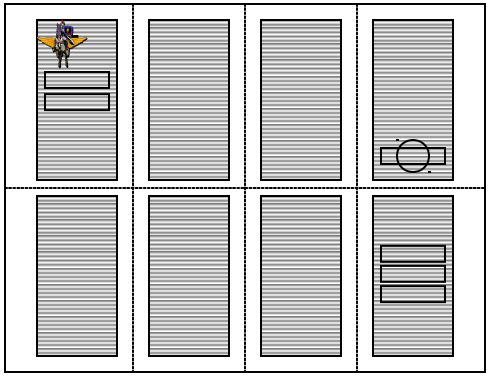
   NOTE: Once you've managed to get a good copy, you can simply photocopy as necessary it to avoid dealing with individual printer settings again.



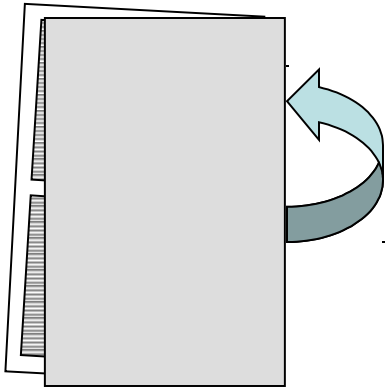
Go to Page 2 for folding instructions

Instructions for preparing the Iron Knight Soldier's -10 Manual, page 2/2

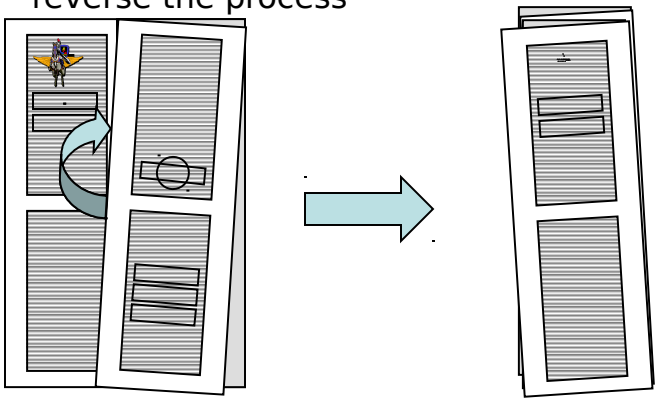
7. Lay the printed sheet on a flat surface, with printed side facing up, as shown



8. Fold page in half from right to left so that the printed sections are on top of each other. You should now be looking at the back of the sheet



9. From the left, fold the sheet back onto itself. The printed panels should be again be exposed. Flip over and reverse the process



10. Fold the ¼ page horizontally as shown, so that the **TM2501-10** printed section is exposed as the front panel. Done!
